Dear Parents and Caregivers,

Thank you to all of you for the fantastic job you have been doing keeping your families safe in your bubbles.

This week some devices will be sent out to homes where we have been told there is no device in the home. Not everyone is going to get a device straight away and the Ministry of Education is prioritising secondary school students at this stage. Any devices will be sent by courier and will be on loan to families until school returns. If you do get sent a device please return it to school with its charger when we all return to school.

In the meantime, we have asked for every child in our school to receive a Ministry of Education workbook, so hopefully these will be posted to you soon. As they are coming from the Ministry we do not know when they will arrive.

There is also educational TV happening every week day from 9.00am-3.00pm and your child's teacher(s) will also be connecting with their classes each day through Seesaw starting on Wednesday. Please email the teacher if you need any help with Seesaw. If you do not have your teacher's email address please email [office@dominionrd.school.nz](mailto:office@dominionrd.school.nz)

You may have heard on the news that some schools might start again a few days after the nationwide lockdown is lifted. We have no further details on this and have not yet been told when we will return to school. We will let you know as soon as we are told.

If you have any questions please do not hesitate to ask. We are all looking forward to seeing your children as soon as we are allowed! Remember to stay in your bubbles to keep everyone safe.

Lesley Mitchell  
Principal
